

Tips For Success

How to Request a Survey Plan

You can request a private survey plan from the Plans, Surveys & Easements section of the property report.

To request a private survey plan from a property report:

1. Select **Plan, Surveys & Easements** from the grey banner at the top of the property report.
2. Select the survey plan and then **Buy**.

The screenshot shows the GeoWarehouse interface. At the top, there are navigation links for Help, Feedback, and Training. Below that is a search bar with the text 'Address, Name, PIN, ARN, Instrument, Plan' and a 'Search' button. A grey banner at the top of the main content area contains navigation options: Back, Overview, Property Details, Site & Structure, Valuation & 1 Plans, Surveys & Easements, HoodQ™ Data, and Demographics. The 'Plans, Surveys & Easements' section is active, displaying a map on the left and a list of plans on the right. The map shows a residential area with a blue highlighted plan labeled 'PLAN: PLSUB'. The list of plans includes: 1964 Legal Survey (\$500*), 1962 PLR Reference Plan, and 1962 PLSUB Plan of Subdivision. A green 'Buy' button is highlighted on the '1964 Legal Survey' row. Below the map, there is a 'Support' button and a message: 'The Protect Your Boundaries™ Easement Indicator detects that there may be 1 easement on this property.'

3. Select **Purchase Image** in the first Property Details window.
4. Select **Add to Cart** or **Quick checkout** from the next Product Details window.
5. If you select **Quick checkout**, you will be directed to the checkout page where you can enter the payment information.
6. Select **Finalize Order** and you will be directed to the transaction confirmation page where you can view the Plan by selecting Download Products.
7. A copy of the survey plan image will be sent to your email and there will also be a link to access it in the Downloads section in your account
