

## TIPS & TRICKS

### HOW TO CHOOSE A PROPERTY FROM THE MAP

The steps to choose a property from the map vary based on the type of computer or device you are using.

- If you are using a PC or a Mac with a mouse, touch pad or track pad single left click on the property and an information box will appear.
- If you are using a device with a touchscreen such as an iPad, place your finger or stylus pen on the map and hold until the information box appears.

- Select  [Street View](#) OR  [Property Report](#) for more information.
